✧ Hurley Traditional Davit ✧

Hurley Dinghy Davits™ are a simple solution for dinghy storage while gaining more room on your swim platform. Easily mounted on the swim platform, this hassle free system lets you lift and pull your dinghy on for easy storage or just push off for launching. Always available for an emergency.

This unique davit system is e-coated, white powder coated and constructed with light weight aircraft aluminum, stainless steel fasteners and hardware allowing for a highly durable system. The skid-plates are made of polyethylene and will allow for easy scuff-free maneuvering. Easily mounted on the swim platform and can be installed while the vessel is in the water.
