

## LED Engine Room / Compartment Light

A very inexpensive Low-Voltage LED light that's ideal for illumination of engine rooms, battery compartments, maintenance areas, genset spaces, etc. Surface mounted with a compact plastic housing that is simple to position and easy to install.

Lights operate on 12v or 24v and are white and have rotational ball type axis gimbal which allows the user to direct the light where it's needed. Ideal for any boat compartment!

**More directional light in your engine room . . .**

- 12v or 24v
- Ball Type Axis Gimbal
- Low Power Draw
- 1 Year Full-Factory Warranty
